233 Peachtree Street, Suite 410
Atlanta, GA 30303**

JOB DESCRIPTION:

SHREDDER SUPERVISOR

Twin Village is a full-service scrap metal recycler with tractor, trailers, roll off containers and lugger boxes for all customers service needs. We offer the highest competitive prices, along with quick response to drop off and pick up of containers.

We are currently looking for a **Shredder Supervisor** for our location in Depew, NY to oversee shredder production, maintenance, and equipment/parts purchases.

PRIMARY RESPONSIBILITIES:

- Assemble electrical systems or prototypes, using hand tools or measuring instruments.
- Build, calibrate, maintain, troubleshoot, or repair electrical instruments or testing equipment.
- Inspect electrical project work for quality control and assurance.
- Identify solutions to on-site technical design problems involving electrical systems equipment.
- Collaborate with electrical engineers or other personnel to identify, define, or solve developmental problems.
- Set up or operate test equipment to evaluate performance of developmental parts, assemblies, or systems under simulated operating conditions.
- Review existing electrical engineering criteria to identify necessary revisions, deletions, or amendments to outdated material.
- Modify electrical prototypes, parts, assemblies, or systems to correct functional deviations.
- Prepare, review, or coordinate ongoing modifications to contract specifications or plans.
- Interpret test information to resolve design-related problems.
- Provide technical assistance in resolving electrical engineering problems encountered before, during, or after construction.
- Install or maintain electrical control systems or solid-state equipment.
- Write procedures for the commissioning of electrical installations.
- Write engineering specifications to clarify design details or functional criteria of experimental electronics units.
- Prepare electrical project cost or work-time estimates.

Minimum requirements for this position include:

- Bachelor's Degree in Electrical Engineering or Mechanical Engineering field and three (3) years of experience. Will accept a foreign equivalent as determined by a reliable credentials evaluation service which specializes in evaluating foreign educational credentials.
- Comprehensive computer user skills.
- Hands-on mechanical-heavy equipment skills.
- Previous welding and maintenance experience.

SALARY: \$72,000.00
